

COMMUNITY IMPACT TOOL

Use this list to gather information needed to complete the Community Impact Tool. This will be your essential checklist designed to guide you question by question through the Impact Tool. You do not have to answer all the questions to utilize the tool.

SLIDE #1

- What is the name of your town or jurisdiction?
- What is the name of your department or organization?
- What is the address of your department or organization?
- Street Address
 - City
 - State
 - Zipcode
- Who is Making the Presentation?
- **Presenter #1**
 - Title
 - Organization
 - Email
- **Presenter #2**
 - Title
 - Organization
 - Email

SLIDES #2 AND #3 DO NOT REQUIRE INPUT

Slides are based on national statistics

SLIDE #4

- How many people die each year in home fires in your town?
- How many residents die each year in home fires in your town?
- How many fire service personnel die each year in home fires in your town?
- How many residents are injured each year in home fires in your town?
- How many fire service personnel are injured each year in home fires in your town?
- How much property damage occurs each year?

SLIDES #5 THROUGH #12 DO NOT REQUIRE INPUT

Slides are based on national statistics

SLIDES #13 - #16

- Are there any 1 or 2 family homes with fire sprinklers in your community?
- What year are your stats from?
- How many fires occurred in 1 or 2 family homes in your community?
- How many had fire sprinklers?
- How many did not have fire sprinklers?
- What was the average property damage in unsprinklered homes?
- What was the average property damage in home fires with sprinklers?
- How many injuries occurred in unsprinklered homes?
- How many injuries occurred in sprinklered homes?
- How many deaths occurred in unsprinklered homes?
- How many deaths occurred in sprinklered homes?

SLIDES #14 - #16

Case Study #1 - Single Family Structure without Fire Sprinklers

- Date of incident.
- Structure type.
- Location of incident.
- Cause of fire.
- Pieces of Equipment Used
- Total Equipment Cost
- Personnel Used
- Total Personnel Cost
- Deaths
- Injuries
- Total Medical Cost
- What percent of the structure was left uninhabitable?
- What was the property loss?
- What other costs or expenses were incurred?
- How long before the structure was repaired or demolished?
- What was the impact on the community (displacement, loss of taxes, depressed property values, etc.)?

SLIDES #17 -#19

Case Study #2 - Single Family Structure with Fire Sprinklers

- Do you have case study data for a sprinklered fire? If no, national averages for sprinklered fires will be used.
- Date of incident.
- Structure type.
- Location of incident.
- Cause of fire.
- Pieces of Equipment Used
- Total Equipment Cost
- Personnel Used
- Total Personnel Cost
- Deaths
- Injuries
- Total Medical Cost
- What percent of the structure was left uninhabitable?
- What was the property loss?
- What other costs or expenses were incurred?
- How long before the structure was repaired or demolished?
- What was the impact on the community (displacement, loss of taxes, depressed property values, etc.)?

SLIDES #20 THROUGH #27 DO NOT REQUIRE INPUT

Slides are based on national statistics

SLIDE #28

- What specific request do you have for the group you are presenting to
- Upload your logo
